20	Vesam Hemalatha	121135401020	Assess the Levels of Knowledge about Health Care programmes implementing in the yerravaram ward of yellamanchili muncipality
21	Y. Saidurga	121135401021	Village development Planning

Objectives of the Project:

1. To study the Socio-Economic conditions in the study area
2. To assess the level of knowledge regarding health care Programmes implementing by the Government in the study area
3. To create awareness among the people about knowledge on the health care programmes Implementing in the study area
4. To make people aware how to utilize of health programmes /schemes and also aware them to Prevent the chronic & other diseases identified in the study area

Methodology:

The data for the study were collected Primary sources as per the details given below.

A primary source has been used to find out the socio-economic status and levels of knowledge of sample households in the study area. The researcher adopted the purposive random sample technique. A structured questionnaire was designed to collect the data from the households. The researcher randomly selected ---households in the Yerravaram municipal ward of Yellamanchili in the Anakapalli district. II BA students have conducted the socio-economic survey and organized a community awareness program. During the survey, they identified various problems and gave solutions to the problem. Later on, project work was undertaken related to assessing the levels of knowledge about Health Care programs implemented in the study area. The researcher randomly selected --- households from the Yerravaram ward and collected data related to health programs by using a structured questionnaire.

Outcome/result

1. Extended knowledge on random sample collection
2. Students Got adequate knowledge on various health programmes implementing in Andhrapradesh
3. Acquired knowledge on implementing levels of health care programmes in their study area
4. Attained knowledge on report writing
5. Developed knowledge on campaigning and improved ability to communicate with other people

I would like to express my special thanks of gratitude to our principal Sir Dr.P.Chandra Sekhar sir who always encouraged us in this project. I would also like to thank my lecturer and guide B.Venkata Ramana, who gave me the golden opportunity to do this wonderful project on the topic "**Assessment of the Level of Knowledge about Health care Programmes** implementing in Yerravaram Ward of Yellamanchili Municipality" and for guidance in this project. This project helped me in doing research on level of understanding about health care progrommes implementing in my study ward and I came to know about so many people not having proper knowledge on health care programes implementing by our state and Central Governments. I am really thankful to them. Secondly, I would also like to thank my relative/friend M.HEMANTH Bother who helped me a lot in finalising this project within the limited time frame
